1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Within amendment a1, filed on 27 Oct 00, on line 2, before "which is", the following has been inserted; --now patent number 6,182,548, --.

2. The following is a comment from the examiner.

In regards to the subject matter added to the independent claims in the most recent amendment, Examiner has reviewed the miter saws (admittedly undated) at Home Depot and noted that some of the screws that hold the arbor shaft covers do indeed penetrate beyond the interior surface. However, they do not penetrate far enough to perform the function of protecting the first guard from the cutting tool, as is now set forth in all of the independent claims. Thus, even if the miter saws were found to have an earlier priority date, they would not read on Applicant's claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Art Unit: 3724
